

FAM CAMP COVID-19 GUIDELINES AND PROCEDURES

General Information

- The Gulf Coast Council will continue to follow all guidelines and procedures of the CDC, state of Florida, and the individual counties and municipalities within the Gulf Coast Council
- All units need to follow guidelines and procedures listed above and the guidelines and procedures of their Charter Organizations before they start meeting and doing activities. **NOTE: The Charter Organizations have the final say if a unit can meet and/or do activities.**

Changes to FAM CAMP

- There will a maximum of **300 participants** allow to attend each of the Fam Camps
- If packs must share a campsite, we will try to assign campsites by districts
- Each campsite will have a round robin schedule, your pack and campsite must follow your schedule
- There will be changes to group gatherings (ex. Open ceremony, Saturday night campfire)
- Fam Camp Check-in Procedures
 - All participants must file BSA Annual Health and Medical Record, with unit leader
 - https://filestore.scouting.org/filestore/HealthSafety/pdf/680-001_AB.pdf
 - All participants must submit Pre-Event Medical Screening form at check-in
 - [Pre-event%20Medical%20Screening%20for%20individuals](#)
 - All participants will have their temperature checked.
 - If anybody in the vehicle has a temperature of more than 100.4 or greater, everybody in that vehicle will not be allowed onto camp
 - Thus, it is recommended that car pooling with other families is discouraged
 - Everybody will receive a wristband showing they have checked in
 - If staff sees somebody without a wristband, the individual(s) will be asked to go to Henson Hall to be checked in
- Campsite Guidelines and Procedures
 - Promote good personal hygiene (i.e. washing hands every hour)
 - No sharing of personal equipment (i.e water bottles)
 - If using buildings, practice social distancing. If social distancing is not possible, wear a mask
 - disinfect all surfaces when finished
 - If using shared equipment or supplies, clean and disinfect between individuals
 - Practice social distancing as much as possible, if social distancing is not possible participants should wear facemasks

- Sleeping Arrangements-
 - Only share tents with people who live together at home
 - Or individual tents/hammocks
- Cooking Guidelines
 - Clean and disinfect all surfaces before, after, and while cooking
 - Limit the number of people in cooking area.
 - Cooks need to wash hands before, during, and after cooking
 - Cooks need to wear masks while preparing meals
 - When serving meal, limit number of servers. No self-serve buffet lines
 - Servers need to wear masks
 - No sharing of utensils
 - All cooking equipment and utensils must be clean and disinfected after use
- Ensure all community used areas are clean and disinfected at least daily
- If someone shows signs of symptoms of communicable disease
 - Contact Health Lodge Immediately
 - Individual should be isolated immediately from the rest of the group
 - Arrangements should made to have the individual to be sent home as soon as possible
 - It should be highly recommended that the individual should follow up with their health care provider.
